PROFILE

A 4th-year Computer Science student specializing in Software Engineering seeking an internship opportunity to gain hands-on experience in software development, web and mobile applications, UI/UX design, and Quality Assurance testing. An approachable and optimistic collaborator eager to apply academic knowledge to real-world projects, deliver thorough technical documentation, and contribute dependable support to dynamic teams.

EDUCATION

BS Computer Science Specialized in Software Engineering

Aug 2023 - Present

Manuel S. Enverga University Foundation - Lucena City, Quezon

Maintained consistent academic honors, earning multiple Dean's Lister designations and College Scholar recognition across multiple semesters with GWAs ranging from 1.41 to 1.73.

EXPERIENCE

Student Software Developer & UI/UX Designer - Academic & Competition Projects

Aug 2023 - Present

- Designed, developed, and tested full-cycle software prototypes, spanning web, mobile applications, and embedded systems.
- Created user personas, wireframes, and interactive UI/UX prototypes using Figma, ensuring clean design-to-development handoffs.
- Implemented core application logic, database schemas (SQL), and integrated front-end with back-end architectures.
- Facilitated team coordination, structured task tracking, sprint documentation, and technical requirement specifications.
- Conducted functional and software testing to identify bugs, ensure system reliability, and refine overall usability.

Research Committee Member | PSITES/MASTECH

2024 - 2026

- Managed committee documentation and conducted event-related research for college activities.
- Verified student academic records for Dean's List recognition and assisted in coordinating department deliverables.

Social Media Manager | MSEUF Wildcat Esports

2024 - 2025

- Handled social media content scheduling and copywriting for community announcements.
- Provided on-ground tournament marshaling and technical assistance during esports competitions.

RELEVANT PROJECTS

ResQ: A Centralized Blood Donation Management System Using Decision Tree Classification and Min-Heap Priority Scheduling

March 2026 - Present

Thesis Project | UI/UX Designer & Mobile Application Developer

ResQ is an automated blood donation scheduling and hospital resource management system designed to streamline donor recruitment, eligibility screening, and urgent hospital supply allocation.

SKILLS

Technical Competencies:

UI/UX Design (Figma) | IDEs (VS Code, Android Studio, and XCode) | Java | Software Testing & QA | Flutter & Dart | Swift | Web & App Development | Database Management (SQL) |

Coordination & Soft Skills:

Technical Documentation | Attention to Detail | Critical Thinking | Cross - Functional Collaboration | Problem - Solving | Task Tracking | Versatility & Adaptability | Microsoft Office Suite

CERTIFICATIONS & RECOGNITIONS

- Participant / Competitor, DAP NextGenPH (2026 - Ongoing)
- Microsoft Certified: Security, Compliance, and Identity Fundamentals (SC-900) — Microsoft (July 2026)
- Software Testing, Deployment, and Maintenance Strategies — IBM (June 2026)
- Flutter and Dart Development — IBM (April 2025)
- Top 10 Finalist, MSEUF Startup Pitch Competition (2025)
